# EXPLANATIONS

The following records of births, marriages and deaths include all entries to be found in the books of record kept by the town clerks; in the church records; in the returns made to the Salem Quarterly Court; in the cemetery inscriptions; and in many private records found in family Bibles. These records are printed in a condensed form in which every essential particular has been preserved. All duplication of the town clerks' record has been eliminated, but differences in entry and other explanatory matter appear in brackets. Parentheses are used when they occur in the original record; also to indicate the maiden name of a wife.

When places other than Ipswich and Massachusetts are named in the original records, they are given in the printed copy. Marriages and intentions of marriage are printed under the names of both parties. Double dating is used in the months of January, February and March, prior to 1752, whenever it appears in the original and also, whenever from the sequence of entry in the original the date may be easily determined. In all records the original spelling of names is followed and in the alphabetical arrangement the various forms should be examined, as items about the same family may be found under different spellings.

Many baptisms appear on the town records, between 1700 and 1800, in some cases supplementing a family record in which several of the births are missing. In the following pages these are incorporated and treated as town records.

In the eighteenth century marriages, "Mrs." is often used to indicate mistress, an unmarried woman, instead of a widow, as at the present time.

In the Chebacco and Hamlet parishes during the early part of the eighteenth century, intentions of marriage, which do not appear on the town books, were entered on the church books.
